Subject: Municipal Consultation

Jason/Craig,

I am tired of hearing the rail bed was thrust upon the community without notice or consultation. We talked to the affected landowners and discussed with municipal staff ahead of time.

Please circulate the attached accordingly.

Regards,

Todd

Ok... We will continue to do our best efforts to make sure snow is cleaned off the road with the groomer to ensure safety standards are met. If there are any issues along the way please dont hesitate to contact me directly to rectify matters.

Regards,

Brent Allen
President
Missing Link Snowmobile Club

> Thanks for your email. Terry is off this week and I will consult with him when he's back next however; I see no major challenges with this change. As you know, we have an obligation under the Highway Traffic Act to ensure that roads are free from obstructions and safe to the travelling public. Our concerns are with windrows or banks of snow which may freeze and pose hazards to vehicles travelling, especially during dark hours when obstructions are more difficult to see. So long as the groomer operators do their best to ensure that no such banks or windrows are created; normal use as occurred along

Logger's Road in the past should not raise challenges. If Terry has additional concerns, I will get back to you next week.

With that being said, we are planning on using the ditch along Pine Valley Road and Yates road to continue accessing the old A trail... Of course the main focus is not to deposit any snow on to the municipal road but there might be some that will be left by snowmobilers. We as a club would like to maintain a great working relationship with the township and would like to make you aware of the possibility of this happening. Do we need municipal approval for using the ditch as well?
