

Reason for trailer

02/17/11

Safety for loading brush hog .

More room for other tools , gas, hand tools and men working signs.

Less chance of tools being damaged when being all load in back of truck.

Easier to load picnic table and moving them back and force when bring them to shop for repair.

Loading brush and gravel when needed.

Loading of material and tools for fencing ,guide rial culverts.

Picking up extra long material etc: steel posts, cedar posts, lumber for docks repairs.

In case of emergency I could leave all tools on trailer and go.
